

WORKERS

VERSUS

WALKER

Join the Raise Wisconsin campaign for a demonstration & rally holding Walker accountable to our demand for a living wage.

Walker refused to fulfill his obligation under Wisconsin law and meet his responsibility to Wisconsin workers by raising the minimum wage. Workers filed an official complaint under state law compelling him to raise the minimum wage to a legally-required “living wage.” But Walker says the minimum wage of \$7.25 per hour is a “living wage” and does not need to be raised. So we are taking our fight for a real living wage to the streets and to the ballot box. We are bringing the fight to Walker. Join us to raise the wage!

People who stand with Wisconsin workers fighting for a living wage are mobilizing for this critical demonstration & rally.
